IV. CAC Policy on Common Administrative Practices and Treatment of Costs and Practices Related to RSI

It was suggested that the Legislative committee review this document for recommended changes and edits and provide them to DAS Deputy Chief Glen Foreman. This item was tabled for this meeting. At that time we can make edits as appropriate so that the Legislative committee can assemble a final document that goes before the CAC for approval.

Comments were taken from the public. One suggestion that was made was there was not a definition of UAC listed. U.A.C. is defined as Unilateral Apprenticeship Committee.

Chairperson de la Peña gave a short report stated copies of this policy were provided and are made available to apprenticeship community. (Please see the attached document).

Scott Lewis, Northern California Carpenters made a suggestion that was accepted under LEA's, colleges, and program sponsors, working together, should: Ensure that a professional development process is in place and followed to improve instructor teaching skills at the discretion of the program.

Chairperson de la Peña stated that this information was provided on the DAS website for review under the "What's New" and one comment was received by Dennis Moran from the Director of the Sacramento, Shasta, Butte area electrical training center and JATC.

One comment was regarding the statement: Provide CCCC CO apprenticeship completion data so that all apprentices who graduate/complete/journey or promote out, whether associated with an LEA or college, will receive college credit and the comment was "That this seems difficult because some LEA's are not community colleges and that would prevent them from providing college credit." Chairperson de la Peña stated that was one of the point that was removed from the original document so that comment has been addressed.

Yvonne de la Peña stated that additionally the bullet "*Review curriculum as needed*" is listed under **LEAs and colleges should:** and she believes that it should also be listed under **LEA's, colleges, and program sponsors, working together, should:.**
